

As a resident of Indiana our people have spoken as is our right as citizens of this great country. If we are on our 'Do Not Call' list we DO NOT want any calls that we have not asked for or invited into OUR HOMES and invading OUR PRIVACY!!!!!! As people of this country we have this right to privacy over any institution that thinks we don't!

There may be a Federal that pertains to this, and all we did was strengthen it. As is our right as a State to self government!
